## Award of Excellence – Downstream

*This award is open to companies operating in the areas of petrochemicals, polymers, refining, LPG, marketing and retail services.*

*Recognizing exceptional operational and financial performance in a dynamic downstream sector, judges will look for a company that is challenging perceptions of what a downstream company does, adjusting to changing currents and new ways in which the world operates. Frontrunners consider what is best for consumers and society, while still expanding their business.*

*Navigating a new course that looks nothing like years past, leaders are modifying their operations rapidly and robustly to provide much needed essential supplies to markets old and new.*

*Entries should focus on innovative solutions, adaptation to social and environmental responsibility, and ultimately creating opportunities in uncharted and turbulent times.*

*Judges will focus on evidence of industry-wide impact since January 2019, in addition to considering the three-year track record of an entrant.*
