Award of Excellence – LNG

The award is open to all players in the LNG value chain, including producers, buyers, portfolio players, traders, financial companies, shippers, and technology innovators.

2020 has seen a sea of change in the LNG industry. Waves of sporadic demand have surged and crashed due to the recent pandemic as lockdowns roll around the world. Final Investment Decisions (FIDs) on new projects have ground to a halt, and price forecasts have been updated at an unseen regularity. In this climate, only the most considered, well-planned and adaptive companies can deliver industry-renowned excellence.

Entries should focus on high-performance in LNG areas including innovation, flexibility, efficiency and partnerships. Nominations might include organizations that have financed, or reached FID on projects that have successfully concluded LNG transactions, or more broadly demonstrated operational excellence within this commodity

Judges will focus on evidence of industry-wide impact since January 2019, in addition to considering the three-year track record of an entrant.

The [judging criteria glossary](#) provides suggested content for the criteria below.
