

S&P GLOBAL PLATTS GLOBAL ENERGY AWARDS

Nomination Template – Commercial Technology of the Year

Each category has specific question and criteria that must be completed. This document is a template of the required questions you will find on the online nomination form. You will have to copy and paste your entry into the [online nomination form](#) in order to finalize your nomination.

Along with the below information, you will also need to provide us with your company logo (high resolution vector format .eps or .ai only) and supporting documentation (photos, documents, or videos, maximum combined file size of 250 MB).

Questions? Please contact the Global Energy Awards Team at +44 797-397-4023 / +1 720-264-6840 or Email globalenergyawards@spglobal.com.

Commercial Technology of the Year

**Specific for technologies that are commercially available and generating revenue. Solutions that are in pilot phase or not yet generating revenue should apply under Emerging Technology.*

To qualify for this award, companies must practically apply new technology in the pursuit of efficiency, business advantage, reduced impact and profit. The Judges will look for commercially applied innovation. Entrants should demonstrate the significance of their technology in relation to emissions reduction, practicality, reliability and overall commercial success.

Note: This award is for the application of "hard" technology. The judges cannot judge the relative merits of standalone, trading, or financial software applications.

Judges will consider any revenue-generating technology implemented on a commercial basis since January 2019.

Samples of photos, videos or other imagery are encouraged but not required.

The [judging criteria glossary](#) provides suggested content for the criteria below.
