S&P GLOBAL PLATTS
GLOBAL ENERGY AWARDS

Commercial Technology of the Year Award Nomination Form

Commercial Technology of the Year

This award is specific for technologies that are commercially available, and have generated revenue. Solutions that are in pilot phase or not yet generating revenue should apply under Emerging Technology.

To qualify for this award, companies must practically apply new technology in the pursuit of efficiency, business advantage, reduced impact and profit. The Judges will look for commercially applied innovation. Entrants should demonstrate the significance of their technology in relation to emissions reduction, practicality, reliability and overall commercial success.

This award is for the application of hard technology. The judges cannot judge the relative merits of standalone, trading, or financial software applications.

Judges will consider any revenue-generating technology implemented on a commercial basis since January 2018.

* 1. Nominated Company Information

Company Name	
Headquarters (country)	
Company's Website	
Company's Twitter Handle	

* 2. Nominator Contact Information
   (person completing this form)

Full Name

Job Title

Company Name

City/Town

State/Province

ZIP/Postal Code

Country

Email Address

Phone Number
