

## S&P GLOBAL PLATTS GLOBAL ENERGY AWARDS

Award of Excellence - LNG Nomination Form

Award of Excellence – LNG

*The award is open to all players in the LNG value chain, including producers, buyers, portfolio players, traders, financial companies, shippers, and technology innovators.*

LNG's commoditization is quickening in 2019. LNG and oil prices are increasingly de-coupling, destination-flexible production continues to ramp-up, and large-scale portfolio supplies have already taken FID (Final Investment Decision). The spot market has become more liquid and transparent in the last year. Market players are increasingly adopting physical LNG spot price assessments in contracts, and exposure to LNG derivatives is growing rapidly as risk management becomes a greater focus for the industry.

Entries should focus on high-performance in LNG areas including innovation, flexibility, efficiency and partnerships. Nominations might include organizations that have financed, or reached FID on, projects that have successfully concluded LNG transactions, or more broadly demonstrated operational excellence within this commodity.

*Judges will focus on evidence of industry-wide impact since January 2018, in addition to considering the three-year track record of an entrant.*
