

## S&P GLOBAL PLATTS GLOBAL ENERGY AWARDS

Award of Excellence - Midstream Nomination Form

Award of Excellence – Midstream

*This award is open to all organizations that store, transport or facilitate trade of energy; most notable are operators such as shipping, railways, tankers, ports, storage, trading organizations and oil, gas and NGL pipelines.*

Increased supplies of petroleum, natural gas and NGLs yield a midstream market, which is pivotal to the delivery chain, while also complex and interdependent.

The winner will best exhibit its adaptation to constantly changing political terrain, fluctuating commodity prices and supply, and establishing its reliability amidst uncertain consumer markets.

Entries should highlight how their organization is innovative in connecting markets and model being an integrated partner throughout the value chain by providing the highest standard of customer service and safety.

*Judges will focus on evidence of industry-wide impact since January 2018, in addition to considering the three-year track record of an entrant.*
